# An Update on Falun Dafa Worldwide

#### VOLUME 1 ISSUE 25 AUGUST 10, 2006

### Numerous Kidney Transplants in Yuhuangding Hospital, Yantai City; Live Donors Found within Days

(Clearwisdom.net) After the Chinese Communist Party's practice of organ harvesting from living Falun Gong practitioners and cremating their bodies to destroy the evidence was exposed, the Falun Dafa Association and the Minghui/Clearwisdom website formed the "Coalition to Investigate the Persecution of Falun Gong in China" (CIPFG) on April 4, 2006, and began comprehensively collecting information and leads. The following is the most recent information the coalition has obtained.

#### Investigation Lead: 160-170 Kidney Transplants at the Yuhuangding Hospital in Shandong Province Over a One-year Period, Live Donors Found within Days

The results of an investigation of the Yuhuangding Hospital Transplant Center in Yantai City, Shandong Province showed that there were between one hundred and sixty and one hundred and seventy kidney transplant surgeries performed there over a one-year period. Between sixty and seventy surgeries have been performed at this hospital this year alone. If a patient has type O blood, the waiting period for a new kidney is a bit longer than for those with other blood types. All the organs come from live donors.

#### Investigation Lead: Working Overtime at Yunnan's Army General Hospital Performing Kidney Transplants

It was recently revealed that the city of Kunming has become the largest source of kidneys for transplant. According to information received from the Number Two Women's Prison in Yunnan, a group of Dafa practitioners was transferred there in April. The practitioners were sent directly into solitary confinement. It's very unusual for prison officials to abandon their usual practice of assigning inmates to monitor each Dafa practitioner, and the practitioners were not allowed to have contact with anyone outside the prison. All family visits for the practitioners were canceled.

At the same time, the Yunnan Army General Hospital (formerly known as Hospital Number 43) in Yunnan Province, which belongs to the Chengdu Army District, became very busy with kidney transplants. Everyone was working overtime, including the financial department. The doctor told each and every patient seeking a kidney transplant that anyone who referred a client or new patient would receive a commission.

# Investigation Lead: Nanjing Military District General Hospital Recently Performed Large Numbers of Kidney Transplants

Per reliable sources, Nanjing Military District General Hospital's Kidney Department recently performed a large number of kidney transplants. The cost for each kidney is approximately 80,000 yuan (approximately 10,000 USD). Other costs are not included.

#### Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. The practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-

Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the vicious most brutal and persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

#### About Clearwisdom

Clearwisdom.net is the most authoritative source of information about the practice of Falun Gong and about the persecution of Falun Gong in China, reporting and timely news events happening inside China as well as from the more than 70 countries around the world where Falun Gong is practiced. Clearwisdom publishes responsibly the experiences and understandings of practitioners themselves, who submit the majority of the articles.

CLEARWISDOM REVIEW- UPDATE ON FALUN DAFA WORLDWIDE VOLUME 1 ISSUE 25 : PAGE 2

#### Crimes Committed at Suihua Labor Camp

#### Li Yequan's Life Hanging By a Thread

Falun Dafa practitioner Li Yequan, from Heilongjiang Province, has been on a hunger strike to protest his illegal imprisonment for more than nine months. His situation is extremely critical. On June 19, Mr. Li's family members went to Suihua Labor Camp and the Labor Camp Bureau in Heilongjiang to ask for his release. The bureau and the labor camp both tried to dodge the request by refusing to meet with them.

#### An Senbiao Persecuted to the Brink Of Death

A Falun Dafa practitioner at Daqing Second Oil Extracting Factory, An Senbiao, 38 years old, suffered such tortures as being burnt, being pricked with needles, having his mouth filled with laundry soap, being shocked with an electric baton, and being sexually abused at Suihua Labor Camp. On July 13, 2005, a family member took An Senbiao home. Mr. An had been persecuted nearly to death. In former days when An Senbiao was healthy, his body weight was 62.5 kilograms (138 lb.), but now he was only 42.5 kilograms (94 lb.). Because Mr. An was tied up and handcuffed for long periods of time, both of his arms are straight and stiff. He cannot bend his arms and has extreme difficulty taking care of himself.

#### Modern Medicine Did Not Help, But Falun Gong Gave Me Good Health

(Clearwisdom.net) My name is Guo Ming. I am an employee in a state-owned company in Jiangxi Province. Falun Dafa has brought me huge benefits both physically and mentally.

From July to November 2004, I suffered from several troublesome symptoms: I was always thirsty. A skin disorder appeared on my body, which caused uncontrollable itching. I constantly felt extreme fatigue and sleepiness, and lost my appetite. I had a pain in the second rib on the right side of my chest. The joints of my right little finger also felt awkward. I needed to use the toilet seven to eight times a day.

Doctors gave me some injections and medicine, but they did not help. Blood tests failed to show any clue. Feeling scared and desperate, I visited a relative who had practiced Falun Gong for several years. When I saw that this once weak and pale woman now looked healthy, with a rosy complexion, I asked her to teach me Falun Gong.

When I returned home in the evening, I couldn't wait to read the Dafa books. After two hours of reading, I began to learn the exercises, following the pictures in the book. Amazingly, the next day I began to have excessive bowel movements, about four to five times. But I felt much more energized. Having personally experienced immediate effects, I began to study Dafa and do the exercises even more seriously. About twelve days later, the pain in my chest disappeared. My appetite also improved, making me feel energized. Today, I am a full believer in Falun Dafa's mighty power. I want to tell all the people in the world: "Falun Dafa is good!"

## Seattle, Washington, USA: "Grand Fa Boat" in Seafair Torchlight Parade

(Clearwisdom.net) The 57<sup>th</sup> Seafair Torchlight Parade was held in downtown Seattle on the evening of July 29, 2006. Falun Gong practitioners were invited again this year to participate in the parade. Their procession included the "Grand Fa Boat" float, unique and colorful Chinese traditional dancing, lion dancing, a waist drum team and a Falun Gong exercise demonstration. Approximately 30,000 spectators along the parade route and 70,000 TV viewers watched the parade.
