The Brutal Torture and Death of Mr. Lei Ming

Broadcast Truth Clarification Videos in Changchun City in 2002

(Clearwisdom.net) Falun Dafa practitioner Mr. Lei Ming, 30 years old, lived in Baishan City, Jilin Province. He and other practitioners worked together to successfully broadcast videos clarifying the facts about Falun Gong on a cable TV network in Changchun City on March 15, 2002. The videos exposed the lies fabricated by the Chinese Communist Party (CCP) and Jiang Zemin's regime. This helped many people awaken from the bombardment of the CCP's lies about Falun Gong.

Mr. Lei before the persecution

Mr. Lei's weight dropped from 143 to 72 pounds

Mr. Lei was illegally arrested after Jiang's regime issued the order to "kill without pardon." After he was savagely tortured in Tiebei Detention Center, Lei Ming was sentenced to 17 years in prison by the Changchun City Intermediate Court. He was sent to Jilin Prison, where he was subjected to the "Stretching Bed" torture and other cruelties, in addition to around-the-clock brainwashing, threats, and intimidation. These gross abuses led to disability in both legs and muscle atrophy. He could not walk, could not take care of himself, and also had severe, active tuberculosis. Jilin Prison officials sent Lei Ming back to his family in November 2004 when he was on the brink of death. He weighed only about 77 pounds, and he was extremely weak. The local police and prison officials constantly harassed Mr. Lei at his home after his release. He went into exile to avoid the harassment and died on August 6, 2006.

Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. The practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

They also requested the Swedish government to help stop the crime of organ stealing in China.

How Come There Is Such a Good Thing in the World

(Clearwisdom.net) I am from Turkey. My name is Taomuruisi and I was born in 1955. I wish I could have learned Falun Dafa much earlier in my life. With the help of a friend, I obtained Dafa. My life changed completely after I started to practice Falun Dafa. Previously, I had diabetes and thyroid illness, but now I am not attached to my illness anymore and I feel very light.

During a nine-day class, I read the lectures, one chapter each day in *Zhuan Falun* (the principal text of Falun Gong). It took one-and-a-half hours to read from the book and 45 minutes to practice the exercises. After I persisted for nine days, my body experienced an amazing change. As a diabetes patient, I have had to take injections every day for the past two years, either in the arm or the legs. As a result, my arms and legs were blue and bruised here and there. However, in just these nine days, all of the bruises miraculously disappeared. My family and I were all very surprised. We are happy because we have experienced the wonderful benefits of Dafa, and so my daughter and son also started to practice Falun Gong. My husband said, "How come there is such a good thing in the world!" Without spending a penny, in nine days, by just reading a book, my illness disappeared and my temper improved as well.
