

## Jiang Zemin Delivers Criminal Evidence of His Human Rights Violations in Geneva

*Hua Yun*

**[Minghui Net]** At the United Nations Human Rights Conference, Jiang Zemin's regime once again has become the focal point as the world gazes at its criminal acts towards Falun Gong practitioners. It has been reported that in order to seek an excuse for their criminality, Jiang Zemin's group will bring the so-called "million signatures" and some so-called "transformed people" to Geneva to prepare a large-scale performance to mislead the public. What they do not realize is that these very signatures and people comprise the ironclad proof of the government's criminality. What do petitions that were not signed voluntarily prove? And what does it prove to "transform" people through coercion, deceitful administrative measures, brainwashing, isolation from the outside world, and in many cases, even torture? This action was an illegal dictatorship's encroachment upon its citizens' freedoms of conscience and belief. Without any sense of shame, Jiang Zemin's representatives display the evidence of his criminality to the international society, which will only cause the governments and organizations of the free world to marvel at the depths to which this country's human rights record has degenerated.

It is also known that in order to honor "the science" of infringing upon and violating human rights, Jiang Zemin's group intends to bring forth some public figures to promote a so-called "counter-pseudoscience" agenda. But once again, they do not realize that the most basic principle of science is that if two sides have different opinions, they must both be allowed to freely and equally express those opinions. One side cannot deprive the other side of the right to speak, or torture them in jails, or send them to mental hospitals to be devastated by dangerous drugs. Jiang Zemin's spokesmen clearly betray the scientific spirit by their actions against Falun Gong. Promoting these "public figures" will only serve to expose the barbaric tactics of these executioners.

Jiang Zemin's representatives are nothing more than performers of a farce, but the only ones being deceived are themselves.
