

## Comments on Two Meetings Held by Jiang Zemin and His Criminal Group in Beijing

**[Minghui Net]** On February 26, 2001, Jiang Zemin held two meetings in Beijing. One was the so-called "advanced group and advanced individual commendation ceremony" (hereafter referred to as the "commendation meeting") on the persecution of Falun Gong; the other one was the so-called "meritorious deeds public lecture" (hereafter refers to as the "public lecture") on the persecution of Falun Gong. In these two meetings, these inhumane beings celebrated their immoral deeds in their roles as players in Jiang Zemin's lethal drama. In order to help people who do not know the truth behind the meetings and to have an understanding of the hidden viciousness of these two meetings, we will briefly present the meetings:

1. Li Lanqing [*a Vice Premier*], the Chief Criminal Player sprung from his position behind the curtain to the front stage

Li Lanqing, as the chief criminal player from Jiang and his persecution group, has long been notorious in activities of suppressing Falun Gong. He knows perfectly well that Falun Gong brings numerous benefits, but no harm to the country and people; he has used all kinds of propaganda machinery in persecuting Falun Gong. From the propaganda media, rumors and lies are everywhere; slander is used to the extreme. He used to plot and direct from behind the curtains. Now, he had to spring to the front stage. What does this tell us? It shows that since the persecution of Falun Gong is unpopular, stronger players are needed. Ordinary players are not effective any more.

2. The "commendation meeting" was a meeting for vicious people to provide and record their criminal evidence

In the so-called "commendation meeting," there were a total of 110 groups and 271 individuals appearing on stage and revealing their true colors. They were representatives of all kinds of criminals in the persecution of Falun Gong. Among them were the public security police who trample national law, violate laws while "enforcing the law," beat, torture, imprison and kill Falun Gong practitioners. There were local party officials, public security and justice police who have lost their human nature and use all kinds of inhumane methods against Falun Gong practitioners. Science radicals came who flaunt scientific and technical worker's banners, but are actually political cronies who brandish the banner called "science" to persecute Falun Gong and deceive people. Literary prostitutes who abandoned their conscience to compile rumors, spread lies and slander the founder of Falun Gong and Falun Gong practitioners, also turned out for the show. Diplomats were there who lost their civic morality and personal integrity to deceive people around the world with rumors and lies, and use the method of criminal gangs against overseas Falun Gong practitioners. In attendance were also working units and basic-level organizations who have lost all their human nature, who do not hesitate to offend heaven and morality in provoking the masses to fight amongst themselves, who spare no effort in persecuting Falun Gong. This crowd of criminals gathered in Beijing to congratulate each other. On the surface it is commending the meritorious and receiving awards, in essence it is disclosure of their criminal deeds to the public and exposure of their putrid core to the world.

3. Showing the world the true side of Jiang Zemin and his criminal group: rumor fabricators, swindlers and oppressors

The diplomats of Jiang Zemin and his criminal group declared many times that: "No one has been sent to labor camps because of practicing Falun Gong." While these words were still ringing in our ears, in the so-called "public lecture" above, there were two labor camps sharing their experiences in persecuting Falun Gong. One was the No. 2 Women's Department of Masanjia Labor Camp from Liaoning Province, the other was Shayang Labor Camp in Hubei Province. These actions of publicly contradicting oneself are not new in the history of the Jiang Zemin's regime.

The so-called "sense of political responsibility" of the two labor camps is to unconditionally obey Jiang's malicious rule. The so-called "historical responsibility," is their ambition of using "falsities, wickedness, and violence" to suppress "Truthfulness, Benevolence and Forbearance," and push the Chinese people into a hopeless situation. Their so-called "true love" is a way of pulling people to collaborate in committing crimes. Their so-called "wisdom" is their poisonous techniques of extremely extrapolating all vicious ways in history to persecute Falun Dafa and Falun Dafa practitioners.

Two evil labor camps came out to present persecution experiences, what does this tell us? Their presence reveals that the truth of Jiang Zemin and his criminal group's history of persecution of Falun Gong are gradually known by numerous people.

4. For any orthodox cultivation group, it is always possible for destructive people to emerge from within during the cultivation process

There was Judas in Christianity. It is not surprising for the so-called "transformed" people to appear from within Falun Gong practitioners. However, the viciousness of this period's persecutors has reached its pinnacle. Zhu Xiuzhi from the Jutai City Elementary School in Jilin Province, who appeared at this "public lecture," is such a representative. Zhu Xiuzhi sits besides those whose hands are full of the blood of Falun Gong practitioners and conducts vicious acts to deceive the world and fool people. She has now been exposed from her destructive hiding place within the Falun Gong cultivation group. She spreads lies, slanders the founder of Falun Dafa and Falun Gong practitioners. It shows that what she truly brings about is "falsity, wickedness, and violence."

In these two vicious meetings, criminal evidence has been set into historical records.
