Falun Gong Practitioners Employed at the Daqing Oil Field Tortured to Death by the Communist Regime

(Clearwisdom.net) Falun Gong practitioners working at the Daqing City Oil Field Company in Heilongjiang Province have been continually subject to persecution by the company. The number of persecution-caused deaths of practitioners is the highest of any workplace in the nation. There have been 25 confirmed deaths of Falun Gong practitioners at the company as of June 16, 2009. These practitioners suffered torture before they died. Some had their organs harvested. The following are some of their stories.

1. Mr. Wang Bin, 47 years old, was a computer engineer. He refused to give up his belief in Falun Dafa at the Daqing Forced Labor Camp and was brutally tortured on September 27, 2000. He sustained a ruptured carotid artery, ruptured blood vessels, and fractures. His tonsils and lymph nodes were ruptured as well. The backs of his hands showed infected cigarette burns. Lighted cigarette butts had been inserted into his nose. After he was beaten to death, his organs were removed.

2. Mr. He Huajiang, 42 years old, worked at the Sixth Oil Mining Factory. Officers from the Qingxin Police Station arrested him on September 16, 2002. He was sent to the Daqing City Forced Labor Camp on December 23, 2002, and died that same night. Mr. He refused to write the so-called "repentance statement" that day. A guard poured icy water on him took him outside. Mr. He froze to death and his body was secretly cremated.

3. Mr. Liu Bingsen, 39 years old, was employed at the fire station at the Oil Field. While detained at a forced labor camp, Mr. Liu was locked in a solitary confinement cell on October 20, 2003. He was shackled to a metal chair and tortured until he died. His legs were swollen, and on his upper right hip were two blisters. There was an obvious mark on the sole of his foot that looked like the result of being shocked by an electric shock baton.

4. Ms. Yang Yuhua, 46 years old, was a teacher at the Sixth Middle School at the Daqing Oil Field. The police arrested Ms. Yang on April 14, 2005, and held her at the Daqing Detention Center. She died in less than a month, on May 12, as a result of brutal forced-feeding. The prison doctor used a feeding tube to stab into her nose while force-feeding her. Later, the doctor increased the torture by using a metal tube to feed her.

5. Ms. Liu Sheng, 53 years old, was a retiree from the Fifth Factory. Officers arrested Ms. Liu on July 5, 2007. That same night the guards beat her until she vomited blood and lost consciousness. The next day she was taken to Harbin Forced Labor Camp. A guard slapped her so hard that she lost the hearing in her left ear. At the camp, Ms. Liu was tortured until she became disabled and vomited frequently. Her weight declined from 55 kg to 30 kg. She died on September 11, 2007.

Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. Introduced by Mr. Li Hongzhi in China, the practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

Falun Gong Saved My Life

(Clearwisdom.net) I am a farmer. This April, I was hospitalized for a bone marrow disease called myelodysplastic syndrome. During the eleven days of my stay at the hospital, I suffered tremendously. I did not eat for six days straight. At night, I could not rest well. After I spent every penny I had, my condition did not improve.

All of my relatives and friends came to visit me, knowing that I wasn't going to live long. One day, a person whom I did not know came by. He suggested that I recite, "Falun Gong is good, Truthfulness-Compassion-Forbearance is good," saying that it would help. Several days later, he gave me a book. I told him I could not read because I couldn't see well. He then visited me often and read the book, *Zhuan Falun* to me (*Zhuan Falun* is the principal text of Falun Gong). I started to understand some profound principles and became more and more interested in Falun Gong. My condition improved daily. My wife and children were so happy and said that this book was miraculous. Later, this Falun Gong practitioner brought me a CD player so I could listen to Master Li's lectures. After a while, the practitioner taught me the exercises. As I practiced, I became stronger and stronger. People were so surprised. I know that Falun Dafa cured me, and my family is grateful to Master Li and Falun Dafa.

Denmark: Falun Dafa Car Tour Warmly Welcomed

(Clearwisdom.net) From July 27 to August 2, 2009, Falun Gong practitioners in Denmark held a car tour through eight major Danish cities outside of Copenhagen to introduce Falun Gong and expose the persecution.

Fyens Stiftstidende published a report on the persecution of Falun Gong. Children learn to the Falun Gong exercises. Two girls take the initiative to help give out Falun Gong leaflets.

When the car tour reached Odense, a reporter from the largest newspaper in Fyens, *Fyens Stiftstidende*, came out to do an interview. The next day, the newspaper ran a story titled, "Falun Gong: we are being persecuted." The following day, in Fredericia, a dozen schoolchildren saw the practitioners demonstrating the exercises. Many of them followed along with the movements. After listening to the introduction, two girls offered to help give out Falun Gong leaflets. When given the OK, they happily took a pile to hand out to the nearby shops. On the third day, the car tour arrived at Esbjerg. A young girl stayed with the practitioners for two hours and learned all five exercises.

Several people learn the exercises from practitioners. Signing the petition to support Falun Gong.

On the fourth day, the car tour arrived at Herning. A man and his wife stopped and learned about Falun Gong and the persecution in China. The man learned the exercises in a rainstorm and bought copies of Falun Gong books in Danish. During the tour, practitioners carried a petition form to be handed to the Danish government. Many people came forward to sign it, calling on the Danish government to help stop the persecution of Falun Gong in China.
