### **See How Long You Cosmic Hoodlums Will Last**

The sky is so heavy  
Not seeing anyone around  
Asking the heavens  
The heavens are without the Dao—is anyone still a God  
Had I not been rectifying the Fa, all is dust  
Those not acknowledging this are all rotten spirits and ghosts  
When scores are settled one day, you will disappear without a trace

September 30, 2006

### **The Future Is in Our Hands**

Though we don't know each other  
We are both protected in mercy by the Creator  
Our cultures differ  
Yet our values are universal  
At the end times, we're all waiting for Him to save and to strengthen  
Humankind has reached the final moment in history  
Because of this, I tell you the truth  
Modern notions and conduct are eroding humanity  
Atheism has people running away from Gods  
The theory of evolution is devaluing life  
Amid kindness and evil, Gods are selecting lives  
The Fa boat that saves won't delay when it leaves

January 2, 2015

### **The Path Guided by Dafa**

Though you and I don't know each other  
We both live on the same celestial body  
Our backgrounds differ  
Yet with common values of human life  
Humankind has reached the final moment in history  
Lives are all waiting for the Creator to come to the world  
Because of this, I tell you the truth

Do not be dogmatic by following modern notions and conduct  
Gods have been choosing lives all along  
Amid kindness and evil, you decide for yourself  
The path guided by Dafa has no doomsday

January 2, 2015

### **The Voyage**

Busy are you, so is he  
Lift up your head to look around  
Behind the dark haze hides a great epidemic  
People are on a perilous road  
Believing lies about the persecution will block your way to heaven  
Modern notions and conduct will not lead you to heaven  
My mission is to tell people the truth  
Falun Dafa is saving people  
Gaining salvation at the end times is your hope  
Oh people, amid a busy life you should consider  
The boat of salvation, for which you came to the world, will soon set sail

January 1, 2016

### **Why Did You Come Here**

All are waiting for the Creator's salvation at the end times  
Before demise comes, the Fa principles that save people are spreading  
Yet people chase after fame and gain  
What's acquired in a lifetime's effort cannot be carried away with you  
Coming and going—you alone  
In a busy life you've forgotten why you came here  
Before descending, most of you were Kings in your heavenly kingdoms  
Giving up your divine bodies to save the heavenly beings  
Gain in the human world is not important  
Connect your divine destiny, remake yourself  
Seek the truth, break free from delusion  
Fulfill the wish you came with to the world—that's your great joy

January 5, 2016

## **What Is Belief**

What is belief in Gods  
Your desire to protect religion is so strong  
Only by giving up attachments can you walk on a divine path  
Be kind like a lamb, in the words of a holy one  
A holy war is one between heavenly Gods  
A fight among people over beliefs kills beings and harms lives  
Unkind hearts can reinforce demonic nature  
Gods will not let people into heaven with hearts for killing  
What is belief in Gods  
Giving up human notions and evil thoughts—heaven accepts only kindness

January 6, 2016

## **My Dream**

I have a dream, a dream that's real  
At the end times, the Creator is saving cosmic bodies and rectifying the Fa  
Countless heavenly Gods came to the world to wait for Him  
Dafa disciples are telling people Dafa is saving them  
The red demon fools people with lies and self-interest  
Doing evil madly, not letting people board the boat of salvation  
Amid kindness and evil, people have to fulfill their promises to gain salvation  
This is the evidence of salvation  
Gods ask me to share this dream with people in a song

February 9, 2016

## **Aspiration**

At the end times, morality is warped  
Modern notions are challenging Gods  
The Creator has come to save people of the world

Yet Dafa disciples have become targets of suppression  
Lies are trumpeted to cover up the truth  
Amid self-interest, people assist the evil, reaping bitter fruit  
Retribution for the ones who persecute may arrive any moment  
Avoid the danger, seek the truth  
Gaining salvation to return to heaven—only that is your aspiration

February 25, 2016

### **Clear Guidance**

We are Dafa disciples—  
Carrying goodness and blessings  
And expressing truth and salvation  
The world's morality is becoming lower and more vulgar  
Modern notions and conduct carry poison  
Atheism is subverting divinity  
The theory of evolution profanes humans and Gods  
I describe the truth with songs  
I dance with Gods, helping you eliminate danger  
Don't stray from the path of tradition onto a dangerous road  
The Creator has already set foot in the human world  
Saving people before disaster comes—wake up quickly  
It is He the world's people all wait for—don't be muddle-headed  
The truth connects to heaven—don't hesitate anymore

February 26, 2016

### **Penetrating the Heavenly Secret**

From across the ocean  
Why do I keep thinking about you  
That is the center of Fa-rectification  
And the main thread of divinely imparted culture  
Five millennia of civilization, boundless meanings  
At the end times, the Creator will rebuild the cosmos from there  
When disaster comes, Dafa disciples can temper themselves in the Fa  
Deviating from the divine path, morality will fall  
The chaotic world will be eliminated by Gods, ruined in disaster

Most people in the world came from heavens to wait for His call  
Gain the Fa and remold yourselves, new holy temples will reappear in your heavenly kingdoms  
This is the purpose of your coming to be human  
This is the fulfillment of your prehistoric vows

March 1, 2016

### **Gods Are Fulfilling Their Vows**

I tell you with songs: Gods are fulfilling their vows  
'Tis a heavenly secret, I have to spell it out  
Cosmos transforming, it's hard for sentient beings to escape great disaster  
Myriad Gods descended from heavens, becoming human beings  
Waiting for the Creator to save them and remake the celestial bodies  
Only by assimilating to Dafa can they board the boat of salvation  
The human world is a maze, divine nature may be buried  
Fame, gain, and qing are seductive  
Atheism comes from the red disaster  
The theory of evolution is made-up, a sham  
Modern notions and conduct are leading to danger  
Lies of persecution make people sin against Gods, hardly able to escape  
Time is running out, extremely pressing  
Fulfill the vows with which you came to the world—don't miss your chance again

March 12, 2016

### **The Dream of a Dafa Disciple**

I have a dream, a dream that's real  
It is extremely grand, extremely sacred  
At the end times the Creator will save the cosmos and rectify the heavenly Fa  
Countless heavenly Gods came to the world to become human, waiting for Him  
The red demon does evil, as it does not want people to take the boat of salvation  
Atheism and the theory of evolution are lies—don't believe them  
Modern notions and conduct are heading toward a dead end  
In chaos, Gods are testing humanity  
Between good and evil, the scales measure the human heart  
This is the evidence for whether or not you can be saved  
Learn the truth from Dafa disciples

My dream is being fulfilled by what's really happening

March 22, 2016

### **Solve the Mystery**

Why did you come to the world  
The answer eludes all beings  
Mistakenly, you take fame and gain as your goals  
Striving hard, you've all accumulated more  
Yet you cannot take glory and wealth with you  
Toiling for a lifetime—for whom do you struggle  
Most people in the world came from heavens  
Descending to the world to gain the Fa and rise up again  
The Creator came to spread Dafa  
The boat of salvation is about to set sail—seize the time to board  
You've reincarnated again and again, coming for this  
The truth Dafa disciples spread is the guiding light

March 30, 2016

### **Don't Take the Human World as Your Homeland**

Most people have come from heavens  
Don't just focus on fighting to get ahead in fame and gain  
You came naked  
When you leave, you shed your skin, taking nothing  
Atheism and the theory of evolution have hidden intentions behind them  
Modern notions and conduct are reaping evil fruits  
The cosmos is dying in the process of formation, stability, degeneration, and disintegration  
The Creator creates the new cosmos, busy in saving all beings  
People came to the world to wait for His salvation and guidance  
Dafa that offers return to heaven is already spreading widely in the world  
Don't take the human world as your homeland  
Gain the Fa and return to heaven—you've been waiting for it for so long, too long

April 13, 2016

## **The Prophecy Comes True**

My homeland sits across the ocean  
Five millennia of civilization, boundless meanings  
That is the main thread of divinely imparted culture  
Legend tells, the Creator will live again in the East and pave the path to Godhood  
This prophecy is coming true  
To save all beings, His disciples are being tempered in tribulations  
Most people in the world came from heavens  
So they could meet Him  
At the end times, humanity and morality will be rebuilt  
If people turn away from Gods, disasters will bring their downfall  
Atheism and the theory of evolution are fooling people  
Modern notions and conduct will make people deviant  
Gaining salvation and returning to heaven—that is your wish and true intent  
Reincarnating for thousands of years just to fulfill this wish

April 17, 2016

## **Our Song**

Assisting Master to save all beings  
Performing on tour is our mission  
Youth is spent in studying, and in honing basic dance skills  
More time is devoted to professional training  
At every moment, lives are elevated in cultivation  
On the dance stage, we are greeted with joy and laughter  
Our sweat earns thunderous applause in gratitude  
The spotlight reflects the brilliance of our lives  
We are lucky lives  
Being a Dafa disciple is my honor  
Shen Yun is our name

April 17, 2016

## **Returning Is Your Wish**

Most people in the world came from heavens  
Memories from long ago are buried in dust  
Seeking pleasure in the world is not your wish  
Where's fame and gain after your lifetime is over  
All that's seen is wind blowing dust  
The Creator came to save the Three Talents\*  
Dafa disciples have compassionate hearts  
Find them, you can be saved  
All beings are lining up to board the boat of salvation

July 28, 2016

*\*Three Talents* refers to heaven, earth, and human beings

## **Vows From the Ancient Past Are Calling**

We came from the depths of the cosmos  
With our compassionate hearts open  
Carrying wishes entrusted to us  
Carrying hope  
We descended to the world to wait for the Creator, who will  
Re-create celestial bodies, save beings of all cosmic realms, and open wide the heavenly gate  
This is the wish you and I came with—yet it's buried  
The world's morality declines, no longer are we holy and pure, honest and simple  
Often we give in to the temptations of fame, gain, and qing  
Modern notions lead us further and further away from Gods, heading to the cliff  
The Dafa that saves already spreads on the world's stage  
This is the wish and longing you brought with you from the remote past  
Seek Dafa disciples to learn the truth, step out of delusion  
Hear the call from heavens, walk toward the divine path

August 21, 2016

## **The Human World Is a Maze**

Someone asks me the meaning of cultivation

I say, I have found myself  
Known the purpose of being human  
And understood where people are heading  
Most people came from distant cosmic bodies  
Coming here to gain Dafa and elevate their lives  
At the end times the Creator spreads Fa principles in the human world  
Saving all beings amid disaster  
The human world is a maze  
Modern notions and conduct will destroy you, me, and others  
Zhen-Shan-Ren is the unchanging iron law of the cosmos  
In reincarnation we've forgotten the purpose of our coming to the world  
Dafa disciples are spreading the truth  
They will tell you the way out of the maze

September 11, 2016

### **Remembrance**

Sadness fills my heart  
Rotten demons cannot stay  
Once all evil from outside is eliminated  
Return my disciples, restore my cosmic reign

September 26, 2016

### **Retribution**

Dark clouds will disperse  
The times are changing  
The oppressors act like animals  
What then, afterward  
In a state of mental frenzy, they are morons  
Believing lies, they are slaves of devils  
In greed, they dare to seize state treasures  
Partnering in crime, their desires have no shore  
Waiting for their arrests, waiting for their sentencing  
Hungry ghosts in hell await their meals, with a cauldron of oil boiling  
Fat from greed, the maniacs will be fried all the more thoroughly

September 30, 2016

### **Spreading**

We come from different ethnicities  
The Gods call us Dafa disciples  
Saving all beings is our purpose in life  
Most people in the world were Gods who descended here, yet they've forgotten  
They came to wait for the Creator and to avoid disaster  
Humankind has come to a dangerous precipice  
Don't follow modern notions and conduct to rebel  
Don't abandon the path guided by Gods  
I shall jog your memories of before your coming to the world  
The truth I tell is the ladder to heaven  
Salvation at the end times is being fulfilled  
We are spreading the message

November 26, 2016

### **Compassion Greater Than Love**

The girl's eyes are filled with love  
Yet he always pretends to be absent-minded  
The girl's words are full of feelings  
Yet he always moves forward his steps in spreading the truth  
Dafa disciples are being persecuted  
How could he bring her to pain, worry, and helplessness  
He can only treasure this love in his heart  
Every time he sees her, not wanting her to leave too quickly  
At parting, he cannot help wanting to express his wish to her  
For a better future for her, for her trust  
For the salvation of all beings  
He must fulfill his vow to the Creator, saving beings without stopping

December 10, 2016

## **Give People Hope**

Evening breeze brings the coolness of a summer night  
In the starry sky shines the moonlight  
Most of the world's people came from heavens  
Becoming human to wait for the Creator's salvation  
Lucky am I to have walked on the path He guides  
Elevating myself in Dafa  
To share this joy with people  
To have people know the truth  
I am persecuted, having to leave, far away from home  
I want people to know life's purpose  
I want to give people hope

December 28, 2016

## **For Saving You Back to Heaven**

I travel between the world's stages  
Singing with songs to spread the truth  
Dancing together with Gods to pave the heavenly path  
Bringing back tradition so morality will rise  
Most people forget they came from heavenly kingdoms  
They wait for the Creator to create the new cosmos and save them back to heaven  
The Dafa that saves people is already spreading in the world  
Yet fame and gain are seizing people's minds, not letting go  
Modern notions and conduct defy the Gods  
Persecuting Dafa disciples is to have people slander Gods  
Those sinning against Gods are burying themselves  
Maintain kindness—that is the guarantee for hope  
What I'm singing is the truth  
What I give you is hope

2017

## **Returning to Heaven Relies on His Salvation**

Human lives truly are reincarnating

Who am I in all the lifetimes then  
Where did we come from  
And when will we return  
Why would life be reincarnating  
Sun, moon, and stars round and round—who moves them  
Dafa disciples say the Creator has made all this  
Humans, Gods, and things are all His masterpieces  
This answer penetrates my ears like thunder  
To return to heaven, all beings rely on His salvation

2017

### **Why Do I Tell the Truth for You to Hear**

Although the persecution is severe  
In our thoughts are sentient beings  
No matter how much Dafa disciples suffer, they're on the divine path  
Harmed by the God-slandering lies are the people  
To save more lives  
Enduring pressure, we tell the truth for you to hear  
You too came to the world to wait for the Fa of salvation  
Eliminating sinful karma, remolding your divine body, and returning to heaven  
Yet practical circumstances have clouded your vision  
Understanding the truth, you'll see human life clearly

2017

### **Spreading the Truth**

We came from different nations  
We came from far corners of the world  
Dafa disciple is our title  
For the same mission  
For saving sentient beings of different realms  
I jog your being's memory  
Telling you the truth is the ladder to heaven  
Humankind has strayed onto a dangerous path  
Don't be carried along by modern notions  
Don't stray from the path guided by Gods

Prophecies for the end times are being fulfilled  
The Creator asks me to spread the truth

2017

### **Returning to Heaven**

So vast is Heaven  
So broad is Earth  
Seeing not the path by which we came  
At the end times the Creator rectifies the Fa and descends from Heaven  
Only when the Fa is right in the cosmos, can Heaven and Earth be everlasting  
For this, all Gods descended to Earth to become human, suffering hardships  
To gain the Fa, remold their divine bodies, and return to Heaven  
Reincarnating over and over, experiencing sea changes  
A long time has passed, you've forgotten your wish, occupied by mundane things  
Dafa is spreading widely  
And the truth is around you  
Falun rotates, then the cosmos is rectified  
The Heaven-bound boat of salvation is about to set sail

January 20, 2017

### **Renewal**

You and I are both Gods, coming from different heavenly kingdoms  
The past is degenerating and disintegrating, while the new cosmos is born  
At the end times, to enter the Creator's new cosmos  
Myriad Kings and Lords descended to Earth to be human  
The old cosmos is dissolving, floating dust falls away  
Evil demons mess up the world, which is turning more murky  
Atheism and the theory of evolution are unfounded pseudoscience and empty words  
Abandoned by modern notions and conduct is the soul  
How many people are clear-minded  
How many people are low-spirited  
How many people are assisting evil, doing unkind things  
Dafa disciples spread the truth  
The truth leads to the gate of the new heaven

January 28, 2017

### **Hesitate No More**

We are Dafa disciples  
The suppression is to blind people  
Covering up the truth is their real intent  
Cosmic bodies are facing disaster, crumbling  
The Creator creates the new cosmos, beginning the new Heaven and Earth  
Most people in the world are Gods incarnated, escaping disaster  
Reincarnating again and again to wait for His salvation, so they won't be discarded  
Atheism and the theory of evolution are opposing Him  
Modern notions and conduct are destroying human offspring  
Before descending to the world you all made vows, which you've forgotten  
I am awakening you to your memory  
Falun Dafa is the hope He gives people—it is spreading  
Fulfill your promise, hesitate no more

March 6, 2017

### **Salvation Is in Sight**

We bring the will of the Creator  
Dafa disciples are giving all they have to save people  
Most people in the world are Gods incarnated to the land of humans  
Waiting for salvation, for the creation of the new cosmos  
Amid gigantic changes, dust will rise  
Only deviant maniacs dare to suppress His disciples  
The red demon's lies intend to stop people from being saved  
Atheism and the theory of evolution are tricks deceiving people  
Modern notions and conduct are abandoning humanity  
All made vows before coming to the world, but they've forgotten  
Falun Dafa is the path back to heaven—salvation is in sight  
Once the chance has passed, heaven's gate will close

March 7, 2017

## **Don't Follow the Red Demon Anymore**

Cosmic bodies are decaying in the process of formation, stability, degeneration, and disintegration  
Most people in the world are Gods incarnated, seeking the Creator before disaster  
Gaining Dafa and remolding your divine bodies—that's your wish upon coming here  
In the treacherous human world, how many can keep their nature amid delusion  
People all know the evil Party is bad  
Yet they follow along when it lies and persecutes Dafa disciples  
All know the evil Party is destroying traditional culture  
Why praise it at its feet when it smears history  
To ruin the Chinese people so they cannot be saved, the red demon  
First brings you down with a culture of fighting and slovenly conduct  
Then fills you up with wicked desire for sex, fame, and gain  
Before disaster comes, I still want you to hear the truth  
As the vow you made before coming to the world was pledged on your life

March 15, 2017

## **Understanding the Heavenly Secret**

The Creator made life, cosmos, and heaven  
Giving ability and power to all Gods at each and every level  
The cosmic bodies are disappearing following formation, stability, degeneration, and disintegration  
He remakes the new cosmos, and busily saves people  
Most people are Gods incarnated, seeking His protection amid disaster  
Reincarnating again and again, waiting for His salvation—waiting for so long  
Now He's arrived in the world, spreading widely Dafa that saves  
Don't worry too much about fame, gain, and qing  
Modern notions and conduct are making people deviate—'tis unlucky  
With atheism and the theory of evolution, one will lose course and not reach shore  
Calls for heaven-bound return are at your side  
Seek Dafa disciples to learn about the truth and open up your heart  
As future Kings, only they can bring sentient beings to cross through heaven's gate

March 25, 2017

### **Spreading the Truth as I Sing**

We are traveling to perform on the world's stages  
Spreading the truth as we sing and dance  
Most modern people have come from heavens, because  
The Creator will open the gate to the new heavens  
He creates the new cosmos and spreads Dafa, breaking through obstacles and difficulties  
Saving all beings, sweeping away dust and dregs  
The traditional path was created by Gods for humans  
Modern notions and conduct are departing further and further from Gods  
Atheism and the theory of evolution are tricks of the demon  
What I am singing is the truth  
People all came to the world with vows, but you've forgotten  
Dafa disciples are Gods' messengers  
Withstanding persecution, they are giving you hope

December 9, 2017

### **Returning to Heaven Is Our Final Destiny**

Whenever I gaze at the starry sky  
Questions always come to my mind  
Life reincarnates again and again—who controls it  
Birth, aging, illness, and death—who sets the clock  
Since I started to cultivate the gong of Dafa  
I've realized why human life comes and goes in a hurry  
Life is not for getting ahead in fame, self-interest, and qing  
Don't again dash forward for gain and loss in human life  
Modern notions and conduct are a dead end, impassable  
Challenging human morality—the evil is launching an assault  
We are waiting for salvation from the Creator, returning to heaven is our final destiny

December 30, 2017

### **Answer to a Riddle**

The sky slowly clears  
The wind hasn't stopped

Clarifying the truth is the vow I made to the Creator  
Never stopping, in the bitter cold or scorching heat  
At the end times Dafa is saving people—wake up quickly  
I want to spread the good news to crowds of people  
This is the hope of the world's people, lifetime after lifetime  
This is the wish entrusted to us by our ancestors  
Humankind exists for this longing  
Dafa disciples are pointing out the path to heaven  
Most people in the world are Gods descended to Earth  
Reincarnating for thousands of years just for this journey

2018

### **Longing**

Far away from the fragrance of my homeland  
Loved ones live in different corners under heaven  
Most people in the world are Gods who came to be humans  
The Creator has come, saving people back to heaven in the holy cosmos  
For spreading written words of truth  
I am persecuted, roaming away from home  
Wandering about, having no fine clothing  
I cannot send a good photo of myself  
Longing for you, looking at the moonlight  
Tender words sent to you often in sweet dreams

2018

### **The Secret of Why People Came to the World**

Dafa disciples bring Gods' will  
Saving sentient beings with all their effort  
The old cosmos crumbles, myriad Gods escape disaster  
Most people in the world are Gods descended, born in the land of humans  
Waiting for the Creator to make the new cosmos  
Amid gigantic changes, dust will be stirred up  
Don't be fooled by the red demon's lies  
Its real intent is to block salvation of people  
Atheism and the theory of evolution are deceptive tricks

With modern notions and conduct one abandons the path to heaven  
The gate to heaven in the new cosmos is not yet closed  
Dafa disciples are saving people  
What I am singing is the truth, a secret in the human world

2018

### **Singing the Truth for You**

We are Dafa disciples  
The suppression is to confuse you  
Covering up the truth is the real intent  
The cosmic bodies face disaster, they're crumbling, becoming empty at the end times  
The Creator saves all beings, creates the new cosmos, atones for people's sins  
Most people are Gods incarnated, waiting for Him to save and to eliminate disaster  
Atheism and the theory of evolution are indoctrinating with poison  
Modern notions and conduct can cause people to lose their humanity  
You made vows before descending to the earth, it's only that you've become worldly  
I wish my songs would help recover your righteous thoughts  
Zhen-Shan-Ren is the path of return  
Fulfill your promises, and embark on the path of return

2018

### **Fa of Salvation**

Before disaster comes, descending to the world with vows and faith  
Bringing the hope of all beings, reincarnating and waiting  
Since the Creator will be here at this time  
In delusion, we are no longer pure and kind  
Forgetting the vows, harming ourselves amid fame, gain, and qing  
Modern notions and conduct are leading to a dangerous path  
Atheism and the theory of evolution are troubles brought by the red demon  
The Fa of salvation is spreading, be quick to gain it  
I sing the truth at the Creator's command  
Since gaining the Fa to return to heaven was your wish when you came

2018

### **Pointing You to the Path of Hope**

In chilly wind, I stand at the street corner, calling out to you  
Not to spread a religion to you  
At the end times Dafa is offering salvation  
Only hoping you can read the truth-clarifying material  
Gods are choosing lives—why don't you want it  
This flyer can save lives and eliminate disaster  
Lies from the persecution have poisoned too many lives  
Evil retribution incurred may come any moment  
Because of this, I fear not suppression or hard work  
This is a Dafa disciple's compassion  
This message is passed to you out of divinity  
Not to seek payback from you  
Seeing you clear about the truth, I will truly smile  
The Fa boat that saves is about to weigh anchor  
'Tis the Creator who asks me to point you to the path of hope

2018

### **If You Are Clear, Then Seek the Truth**

Each and every one is busy seeking fame and gain  
Reincarnating again and again, changing skins  
Human life goes by swiftly—who am I  
Red last lifetime, white this lifetime, will it be black or yellow next lifetime  
Riches from one lifetime cannot be carried along with you  
Once your life is over, an earthen mound is your home  
Most people in the world came from heavens  
As the Creator would come to spread the Fa and offer salvation  
Modern notions and conduct bring misfortune  
Atheism and the theory of evolution have hidden intentions  
What I am singing is the truth  
The heaven-bound boat of salvation is about to set sail

2018

### **Beautiful Dragon Springs**

The beautiful mountain villa Dragon Springs  
That is the place where I am growing up  
Green hills and blue waters, birds singing and flowers fragrant  
Monasteries, holy temples, tower bells ringing  
In the classrooms, young students' talents blossom  
Shen Yun performers nurtured, their abilities unmatched  
Joyous singing and laughing, book reading, spreading beautiful dance and music to other lands  
'Tis pure land and sacred ground in the chaotic world

2018

### **Don't Block the Path to Heaven**

In truth all people are waiting for the Creator  
Reincarnating again and again, waiting, keeping your kindness  
In darkness, deluded and forgetting your missions  
Deviant notions and conduct will block the path to heaven  
With atheism and the theory of evolution, demons declare war against Gods  
Most people are Gods descended to the world, waiting for the Creator's call  
He asks us to save all beings without delay  
Since countless heavenly kingdoms are waiting for their Kings to sidestep disaster  
What I am singing of is the truth—judge for yourself  
On the path back to heaven, don't trip yourself up by being stubborn

February 14, 2018

### **Most People Are Gods Incarnated**

I tell you the truth with songs I sing  
Before disaster comes, the Creator is rearranging cosmic bodies  
Most people are Gods incarnated, coming here to escape disaster  
At the end times He asks us to save all people  
The pit of fame, gain, and qing is bottomless  
Words of disbelief in Gods follow demon's logic  
What modern notions and conduct harm is yourself

Knowing the truth, you will be cleansed by Him  
I am inspiring your wisdom  
Because at the foundation you are divine

### **Seeing Through It, It's Not a Mystery**

(Revised Version)

The bright moon oft appears  
When drunk, don't seek answers from the heavens  
Celestial palaces are rarely seen by humans  
This night is the final year  
What's gone with the wind is dust  
Cowards fear the chill on high  
Climb up high, embrace the bright moon  
The Goddess Chang'e in the human world  
Gazing at the moon, hard to return  
Great disaster comes at the end times  
The demon toad is running wild  
Red tide will not last long  
The Fa will soon rectify the human world  
At that time, climb high, the moon will look even fuller

2019

### **Death Watch**

Let the evil demons and rotten ghosts run mad  
At the end times, all things will be doubly paid back  
See how much longer you still can last  
Sweeping clear the cosmos, Kings beyond heavens

September 27, 2006

### **Divine Bearing**

Heavenly realm and divine music, flying beauties arrive  
Yellow flowers and green grass, dancing of the long skirt  
Clear as ice and pure as jade, lotuses with dew——  
Nowhere to be found in the murky human world

Assisting Master to save people, displaying divine bearing  
Stars are they, shy, their faces covered by skirts  
They alone lead with grace, touring everywhere under heaven  
One day they shall follow Master to ride the flying clouds

October 22, 2015

### **The Divine Path Is Nearby**

The divine path leading to heaven  
Dafa is spreading widely  
People came for this  
Attachment to money blocks the path  
Believing not that Gods have come to Earth  
The truth is nearby  
Fame, gain, and qing are illusory  
Missing the chance, heartbroken regret  
Affairs in human life are transitory  
Naked, you come and go  
Gods ask me so you I hail  
The boat of salvation is about to set sail

October 23, 2015

### **The Virtuous Know the Path**

The divine path is before the eyes  
Why don't you see it  
Coming to the world for thousands of years  
Never stopping in seeking the path

Fame and gain blind people's eyes  
Kind thoughts lacking at the end times  
How many can wake up and understand  
The virtuous know the path

October 24, 2015

### **How Many People Are Awake**

However nice is the human world, things are transitory  
Holy and wonderful is heaven  
Glory and splendor cannot be taken with you at the end of life  
Striving hard for fame and gain—who are you busy for

Most people are Gods who came here long, long ago  
Waiting to be saved by the Creator  
Eliminate sinful karma, remold the divine body  
Your heavenly kingdom shall welcome a new King

2016

### **Beautifully Dancing**

Divine beings floating, from the ninth heaven landing  
Each and every flower, with dew dripping  
Long sashes twirling, as if rainbows rolling  
Fine bearing and divine beauty, in the human world roaming

Graceful dancing, singing of songs, wide sleeves waving  
Walking as if floating on water or in the clouds gliding  
Displaying the ancient and the current, assisting Master's saving beings  
Divinely imparted culture embodied, beautifully dancing

January 2, 2016

### **Flying Beauties Perform**

A bright moon hangs in the vast sky  
Jade halls and magnificent palaces—beauties performing  
Their brilliance reflected in heaven and earth, scenery more splendid  
Graceful with nimble steps, the dancers' sleeves extending

Tumbling and turning, expanding and drawing in—heavenly beauties flying

Their postures brim with a sweet magic

### **All So That Sentient Beings Can Be Saved**

Gusty wind, billowing waves, the red demon is crazed  
Fooling sentient beings by the billions  
Believing in the lies, holding evil thoughts  
Poisoned lives are led around by the demon  
Fa disciples fear not the dangers of suppression  
Shouldering the task of saving sentient beings  
Dafa comes from the Creator  
He beckons people to obtain the Fa and return to heaven  
The suppression is to deceive the world's people  
The smoke of confusion blows, not letting people be saved  
Amid suffering, saving people and seizing the time  
Followers of Fa endure hardships, yet their resolve is stronger  
All so that sentient beings can be saved  
The truth is spread across heaven and earth

February 9, 2016
